Our Vision

To be the supplier of choice for low-voltage electrical switchboards, motor control centres, and switchboard services – trusted by commercial and industrial clients across all nine provinces of South Africa.

Our Mission

To deliver innovative, efficient, and professional electrical solutions that consistently exceed customer expectations.

Our Values

We lead with integrity, engineer with precision, and build lasting partnerships through trust and responsiveness.

Our Story

MEC Technology is a proudly South African manufacturer of electrical switchboards, distribution boards, and motor control centres.

With decades of combined experience – including expertise from Siemens – our team is led by Director Roy Bennett, whose leadership drives our culture of technical excellence, innovation, and reliability.

Through consistent delivery and customer-focused service, we have built a strong reputation across South Africa's leading industrial sectors.

What We Offer

MEC Technology designs, engineers, and manufactures:

- Custom-built & modular electrical main switchboards
- Sub-distribution boards
- PLC panels
- Motor control centres (Form 1–4, 3a, 3b, 4a & 4b)
- DC combiner boxes
- Eskom junction boxes & metering panels for transmission and distribution
- Metering kiosks

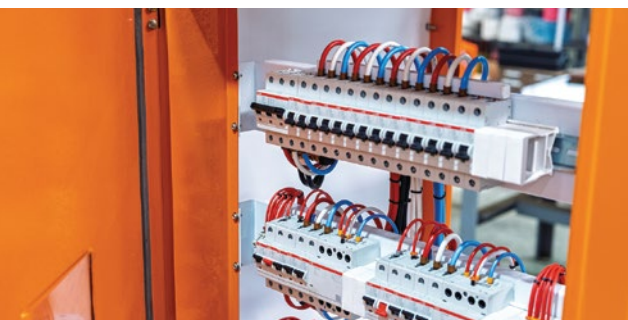

Our manufacturing facility in Firgrove integrates PRODUCTION, ADMINISTRATION, and ENGINEERING under one roof, with:

A dedicated design & engineering centre

Sheet metal fabrication workshop

Busbar bending technology

Wiring & switchgear assembly areas
